### SECTION 3 — ABOUT 11:11 DECOR

11:11 Decor is an event management and décor studio built around a simple idea: the details are the experience. We plan and design weddings, celebrations, and corporate events from the first conversation through to the final walkthrough on event day. Every event starts with listening — to what you're celebrating, who it's for, and how you want it to feel. From there, we shape a concept, translate it into décor and layout, and coordinate every moving part so the day runs the way it was designed to. We work closely with vendors, venues, and your own team to keep planning organized and stress-free, so the only thing you have to do on the day itself is be present in it.

## H1

Creating Experiences, Not Just Events

### INTRODUCTION

11:11 Decor is an event management and décor studio designing weddings, celebrations, and corporate events. We work across planning, décor, and on-site coordination — either as a full end-to-end service or as individual pieces of a larger event you're managing yourself.

### OUR APPROACH

Every event begins with a conversation, not a template. We start by understanding the occasion, the people it's for, and the feeling you want guests to walk away with. That shapes the concept — the palette, the layout, the pacing of the day — before a single vendor is booked.

### PLANNING & DÉCOR, TOGETHER

Planning and décor are handled as one connected process rather than two separate services. That means the design concept informs the floor plan, the floor plan informs vendor logistics, and every element is built to work together on the day rather than assembled at the last minute.

### ATTENTION TO DETAIL

The small decisions — spacing between tables, the order of the evening, where the light falls at golden hour — are treated with the same care as the large ones. It's these details that guests remember, even if they can't always name why.

### ON EVENT DAY

Our team manages setup, timing, and coordination on-site, so you're free to be a guest at your own event rather than its stage manager.

Event Planning, Management & Décor Services

### INTRODUCTION

Some events need full management from the first planning call through to breakdown on event day. Others just need décor built around a date and venue that's already set. 11:11 Decor offers both — choose one service, or combine several into a single coordinated plan.

## URL CONVENTIONS

- Lowercase, hyphenated slugs, no dates, no ID-based URLs.
- Services under /services/, events under /events/, blog under /blog/[category]/[slug]/.
- Trailing slashes used consistently across all URLs.

## CANNIBALIZATION WATCHPOINTS

- **Wedding Decoration vs. Wedding Events** — Decoration page targets visual/styling intent; Wedding Events page targets planning/coordination intent. Keep H1/H2 structure distinct, not reworded duplicates.
- **Event Management vs. Event Planning** — Management = execution/logistics/on-the-day; Planning = pre-event design/vendor sourcing.
- Each Service page and its matching Event page must target a different primary keyword — see keyword column in Sections 5 and 7.

## SCHEMA BY PAGE

| Testimonials  | No review schema until real, verified reviews exist          |

## PERFORMANCE

- WebP/AVIF images, explicit width/height or aspect-ratio to prevent CLS.
